INTERNATIONAL JOURNAL OF
REMOTE SENSING

An official journal of the
Remote Sensing Society

VOLUME 15 1994

Taylor & Francis
Publishers since 1798

Printed in Great Britain by Burgess Science Press
Rankine Road, Basingstoke, Hants RG24 8PR

CONTENTS OF VOLUME 15

NUMBER 1

Editorial. Ten years and going strong. **P. Curran** 1

Observations on the sensitivity of ERS-1 SAR image intensity to changes in aboveground biomass in young loblolly pine forests. **E. S. Kasischke, L. L. Bourgeau-Chavez, N. L. Christensen, Jr. and E. Haney** 3

The development of image processing techniques to assess changes in green vegetation cover along a climatic gradient through Northern Territory, Australia. **W. Matheson and S. Ringrose** 17

Landsat-5 Thematic Mapper models of soybean and corn crop characteristics. **P. S. Thenkabail, A. D. Ward and J. G. Lyon** 49

The effects of vegetation on the ability to map soils using imaging spectrometer data. **R. J. Murphy and G. Wadge** 63

Technical Note. Study of desertification process in Aravalli environment using remote sensing techniques. **J. K. Mishra, M. D. Joshi and R. Devi.** 87

Distribution of the brightness temperature of land surfaces determined from AVHRR data. **H. Reutter, F.-S. Olesen and H. Fischer** 95

On the atmospheric dependence of the split-window equation for land surface temperature. **C. Coll, V. Caselles, J. A. Sobrino and E. Valor** 105

SMAC: a simplified method for the atmospheric correction of satellite measurements in the solar spectrum. **H. Rahman and G. Dedieu** 123

Applications of NOAA-AVHRR 1 km data for environmental monitoring Review Article. **D. Ehrlich, J. E. Estes and A. Singh** 145

Remote sensing-based geological mapping of the area west of Al Madinah, Saudi Arabia. **M. A. Alwash and J. Zilger** 163

Electro-acoustic sounding of the cloudiness atmosphere. **S. V. Polyakov, V. O. Rapoport and V. Yu. Trakhtengerts** 173

Book reviews 181

Remote Sensing Letters

Tropical lake surface temperatures from locally received NOAA-11 AVHRR data—comparison with *in situ* measurements. **M. J. Wooster, C. B. Sear, G. Patterson and J. Haigh** 183

Parametrization of a single scattering atmospheric correction algorithm using 5S code. **S. M. Singh** 191

Surface irradiances calculated from Meteosat sensor data during SOFIA-ASTEX. **A. Brisson, P. Le Borgne, A. Marsouin, T. Moreau** ... 197

Bottom influence on the estimation of chlorophyll concentration in water from remotely sensed data. **L. Estep** 205

NUMBER 2

6th International Symposium on Acoustic Remote Sensing and Associated Techniques of the Atmosphere and Oceans

Foreword. **A. P. Cracknell** 217

Cover 219

Part 1 Review

Recent advances on atmospheric acoustic sounding. **D. N. Asimakopoulos and C. G. Helmis** 223

Part 2 Acoustic Sounding Techniques

The use of a small acoustic wind profiler from a seagoing platform. **S. G. Bradley and K. R. George** 237

A battery-powered minisodar for rapid, short-term deployment or long-term operations. **R. L. Coulter, T. J. Martin and R. L. Hart** 245

Acousatic and radio-acoustic remote sensing studies in C.I.S. (Former U.S.S.R.)—current status. **M. A. Kallistratova** 251

Line-averaged measurement of velocity fine structure in the ocean using acoustical reciprocal transmission. **D. Menemenlis** 267

Acoustic sounder application: performance of three line-of-sight microwave links situated over hilly terrains in Southern India. **D. Narayana Rao, K. Krishna Reddy, S. V. B. Rao, K. S. Ravi and M. J. K. Murthy** ... 283

Acoustic sounding, atmospheric structure and insects. **J. R. Riley** ... 293

Part 3 Acoustic Instrumentation

Experiences with remotely-operated minisodars. **R. L. Coulter and T. J. Martin** 301

Simple method of calibration of conventional sodar antenna system. **S. D. Danilov, A. E. Gur'yanov, M. A. Kallistratova, I. V. Petenko, S. P. Singal, D. R. Pahwa and B. S. Gera** 307

Accuracy of sodar wind variance measurements. **J. E. Gaynor** 313

NOAA's portable, high-frequency minisodar design and first results. **E. Mursch-Radlgruber, D. E. Wolfe, D. W. Gregg, C. W. King, W. D. Neff, K. A. H. Sharp and D. Ruffieux** 325

Beam pointing errors of phased arrays for digital switched beam acoustic radars. **T. Liaskas, G. Stephanou and D. Martakos** 333

Part 4 RASS and Lidar

Radio-acoustic sounding of the troposphere using short radio waves. **A. L. Fabrikant, V. Yu. Trakhtengerts, Yu. G. Fedoseev, V. O. Rapoport and V. A. Zinichev** 347

Development of a mobile three-dimensional scanning lidar system for aerosol monitoring in rural areas in Greece. **A. Papayannis, H. D. Kambezidis and D. N. Asimakopoulos** 361

Accuracy of RASS measurements and the Bragg condition. **I. V. Petenko and A. N. Bedulin** 369

Measurement of wind speed using a rapid-scanning lidar. **S. Sutton and M. Bennett** 375

Part 5 Applications of Remote Sensing to Air Pollution Studies

Climatological evaluation of sodar recordings over complex terrain. **D. N. Asimakopoulos, C. G. Helmis and D. G. Deligiorgi** 383

Mesoscale air quality studies with meteorological remote sensing systems. **W. D. Neff** 393

Application of sodar to air pollution meteorology. **S. P. Singal, B. S. Gera and D. R. Pahwa** 427

Study of PBL dynamics over northern plains in fixing stack height of a super thermal power station. **H. N. Dutta, Jaya Naithani, S. K. Sarkar, M. V. S. N. Prasad, B. M. Reddy, G. S. Dhillon, H. S. Gurm, S. K. Bhargawa and M. M. Lal** 443

Part 6 Boundary Layer Studies

Barrier winds recorded during two summer Antarctic campaigns and their interaction with the katabatic flows as observed by a tri-axial Dippler sodar. **S. Argentini and G. Mastrantonio** 455

Boundary layer turbulence in the Rhone valley as seen with four acoustic sounders. **B. Carissimo, O. Marchand and E. Dupont** 467

Evidence of sea-breeze flow at the top of Hymettos mountain. **C. G. Helmis, D. G. Deligiorgi, D. N. Asimakopoulos and D. P. Lalas** 479

Doppler sodar observations of a cold front during the PYREX experiment orographic effects. **V. Kotroni, C. Amory-Mazaudier and K. Lagouvardos** 489

A similarity method to derive turbulence parameters and mixed-layer depth from sodar measurements. **D. Melas and H. D. Kambezidis** 499

Estimation of the sensible heat flux and the temperature structure parameter by sodar and sonic anemometer: an intercomparison. **S. Vogt and P. Thomas** 507

NUMBER 3

Cover. Fraction images derived from NOAA AVHRR data for studying the deforestation in the Brazilian Amazon. **Yosio E. Shimabukuro, B. N. Holben and C. J. Tucker** 517

The value of ground resolution, spectral range and stereoscopy of satellite imagery for land system and land-use mapping of the humid tropics. **R. B. King** 521

An improved method for accurate calculation of albedos of inhomogeneous land surfaces. **Dong Guoquan and Li Zengzhi** 531

Some considerations for using AVHRR data in climatological studies: I. Orbital characteristics of NOAA satellites. **J. McGregor and A. J. Gorman** 537

Some considerations for using AVHRR data in climatological studies: II. Instrument performance. **A. J. Gorman and J. McGregor**... 549

AVHRR split window temperature differences and total precipitable water over land surfaces. **T. F. Eck and B. N. Holben** 567

Vegetation classification in the Middle Mediterranean area by satellite data. **R. Benedetti, P. Rossini and R. Taddei** 583

A grazing gradient approach to land degradation assessment in arid areas from remotely-sensed data. **G. Pickup and V. H. Chewings** 597

Sub-pixel land cover composition estimation using a linear mixture model and fuzzy membership functions. **G. M. Foody and D. P. Cox** 619

A three-dimensional feature space iterative clustering method for multi-spectral image classification. **Liu Jian Guo and J. D. Haigh** 633

Soil moisture assessment at a basin scale using active microwave remote sensing: the Agriscatt '88 Airborne Campaign on the Orgeval watershed. **M. Benallegue, M. Normand, S. Galle, M. Dechambre, O. Taconet, D. Vidal-Madjar and L. Prevot** 645

Anisotropy of the sea spectrum at 3–30 cm wavelengths, inferred from *C*-band radar sea echo model. **G. Caudal and E. Le Proud'hom** 657

Book review 669

Remote Sensing Letters

Reflectance spectra of microphytic soil crusts in semi-arid Australia. **A. L. O'Neill** 675

The Relationship Between the Size of Spatial Subsets of GER 63 Channel Scanner Data and the Quality of the Internal Average Relative Reflectance (IARR) Atmospheric Correction Technique. **E. Ben-Dor and F. A. Kruse** 683

Wet tropospheric range corrections for radar altimeter over Indian Ocean. **N. Gautam, Sujit Basu, R. M. Gairola and P. C. Pandey** 691

Ratios of leaf reflectances in narrow wavebands as indicators of plant stress. **G. A. Carter** 697

The relationship between red edge and chlorophyll concentration in the Broadbalk winter wheat experiment at Rothamsted. **R. Munden, P. J. Curran and J. A. Catt** 705

Fire and glint in AVHRR's channel 3: a possible reason for the non-saturation mystery. **A. W. Setzer and M. M. Verstraete** 711

Removal of the effect of sun-glitter from Thematic Mapper imagery of the sea. **S. Tassan** 719

NUMBER 4

Special issue: The ERS-1 Data Processing Algorithms and Processes Developed for the Earth Observation Data Centre at Farnborough

Cover 727

Preface. **A. Haskell** 729

ERS-1 product generation at the EODC. **E. R. Peters, K. Plumb and N. Veck** 733

An overview of the development of the Earth Observation Data Centre and its processing and achiving facilities. **M. S. Hutchins, H. K. Wilson, D. Bass and P. Waggett** 741

ERS-1 processing chain development and product support by the EODC science team, the algorithm development facility and the calibration and validation facility. **R. F. Scott, M. D. Elkington and N. F. McIntyre** ... 761

The EODC SAR Processor. **A. M. Smith, C. Wilson and P. J. Meadows** 785

Segmentation of Synthetic-Aperture Radar imagery of sea ice. **A. J. Sephton, L. M. J. Brown, J. T. Macklin, K. C. Partington, N. J. Veck and W. G. Rees** 803

The ATSR data processing scheme developed for the EODC. **A. M. Zavody, M. R. Gorman, D. J. Lee, D. Eccles, C. T. Mutlow and D. T. Llewellyn-Jones** 827

The ERS-1 microwave radiometer. **L. Eymard, A. Le Cornec and L. Tabary** 845

ERS-1 microwave sounder processing at the EODC. **G. Bland** 859

Overview of altimeter data processing at the U.K. Earth Observation Data Centre. **W. Cudlip and M. Milnes** 871

Corrections for altimeter low-level processing at the Earth Observation Data Centre. **W. Cudlip, D. R. Mantripp, C. L. Wrench, H. D. Griffiths, D. V. Sheehan, M. Lester, R. P. Leigh and T. R. Robinson** 889

Sea ice altimeter processing scheme at the EODC. **S. Laxon** 915

Ice sheet altimeter processing scheme. **J. L. Bamber** 925

The U.K. EODC ERS-1 altimeter oceans processing scheme. **R. T. Tokmakian, P. G. Challenor, T. H. Guymer and M. A. Srokosz** 939

NUMBER 5

Cover. The algal bloom in the Baltic during July and August 1991, as observed from the NOAA weather satellites. **B. G. Håkansson and M. Moberg** 963

A fractal analysis of shadowed and sunlit areas. **B. Klinkenberg** 967

The problem of AVHRR image navigation revisited. **V. M. Krasnopolsky and L. C. Breaker** 979

Technical note. Digital enhancement as an aid to detecting patterns of vegetation stress using medium-scale aerial photography. **P. L. Jackson and G. G. Gaston** 1009

Segmentation of polar scenes using multi-spectral texture measures and morphological filtering. **J. Chou, R. C. Weger, J. M. Ligtenberg, K.-S. Kuo, R. M. Welch and P. Breeden** 1019

Contextual techniques for classification of high and low resolution remote sensing data. **B. Kartikeyan, B. Gopalakrishna, M. H. Kalubarme and K. L. Majumder** 1037

Choosing weight functions for filtering SAR. **G. W. Horgan** 1053

Caracterisation des textures urbaines sur image radar VARAN par approche morphologique et statistique. Application à la ville du Luc (sud-est de la France). **P. Durand, M. Hakdaoui, J. Chorowicz, J. P. Rudant and A. Simonin** 1065

Book reviews 1079

Remote Sensing Letters

Cotton Production Estimation using IRS-1B and Meteorological Data. **S. S. Ray, S. S. Pokharna and Ajai** 1085

The importance of instrument pointing accuracy for surface bidirectional reflectance distribution function mapping. **D. P. Roy and S. M. Singh** ... 1091

An airborne sensor for primary productivity and related parameters of coastal waters and large water bodies. **Ramani Seshamani, T. K. Alex and Y. K. Jain** 1101

Empirical estimation of the ERS-1 SAR radiometric resolution. **Philippe Olivier and Daniel Vidal-Madjar** 1109

Fourier analysis of multi-temporal AVHRR data applied to a land cover classification. **Ludovic Andres, William A. Salas and David Skole** ... 1115

Investigation of Image Resampling Effects upon The Textural Information Content of a High Spatial Resolution Remotely Sensed Image. **D. P. Roy and O. Dikshit** 1123

Reducing boundary effects in a kernel-based classifier. **Peng Gong** ... 1131

A new aid for teaching the physical basis of remote sensing. **E. J. Milton** 1141

Radar backscatter signatures of thin sea ice in the central Arctic. **S. G. Beaven, S. P. Gogineni and M. Shanableh** 1149

Comparison of vertical ozone profiles as deduced from remote and *in situ* sensing techniques. **C. Varotsos, P. Kalabokas and G. Chronopoulos** ... 1155

An algorithm for sea surface temperature estimation from ERS-1 ATSR using moisture dependent coefficients: a simulation study. **B. S. Gohil, A. K. Mathur and P. C. Pandey** 1161

NUMBER 6

Cover. Oceanic fronts in the northeastern Carribean revealed by satellite ocean colour imaging. **R. A. Armstrong** 1169

Radar and infrared measurements of a cold eddy in the Tyrrhenian Sea. **B. J. Topliss, T. H. Guymer and A. Viola** 1173

A non-regression-coefficients method of sea surface temperature retrieval from space. **Y. Yu and I. J. Barton** 1189

Modelling suspended particle distribution in near coastal waters using satellite remotely-sensed data. **B. Forster, X. Baide and S. Xingwai** ... 1207

A first try at identification of sea ice using the three beam scatterometer of ERS-1. **F. Gohin and A. Cavanié** 1221

Multi-year sea ice mapping by thermal infrared radiometry. **F. T. Christensen, Q.-M. Lu and L. T. Pedersen** 1229

The present state of the remote sensing applications to geological sciences in Greece. **T. Astaras** 1251

Texture measures for the identification and monitoring of urban derelict land. **B. R. P. Dawson and A. J. Parsons** 1259

Use of groundtruth data to correct land cover area estimates from remotely sensed data. **S. T. Buckland and D. A. Elston** 1273

Mapping the reliability of satellite-derived landcover maps—an example from the Central Brazilian Amazon Basin. **C. Corves and C. J. Place** ... 1283

Cropland inventory in the command area of Krishnarajasagar project using satellite data. **P. P. Nageswara Rao and A. Mohankumar** 1295

Wheat production forecasting for a predominantly unirrigated region in Madhya Pradesh (India). **V. N. Sridhar, V. K. Dadhwal, K. N. Chaudhari, R. Sharma, G. D. Bairagi and A. K. Sharma** 1307

Application of tilt modulation of the scatter cross-sections to distinguish between different non-Gaussian rough surfaces: unified full wave approach. **E. Bahar, R. D. Kubik and Yan-Feng Li** 1317

Book reviews 1335

Remote Sensing Letters

Use of SAR in regional methane exchange studies. **L. A. Morrissey, G. P. Livingston and S. L. Durden** 1337

The potential for regional estimation of absorbed photosynthetically active radiation using new moderate spatial resolution sensors. **S. E. Plummer** 1343

Spectral mixture analysis of inland tropical waters. **Evlyn M. Novo and Yosio E. Shimabukuro** 1351

The Availability of Landsat TM images of Great Britain. **R. M. Fuller, G. B. Groom and S. M. Wallis** 1357

NUMBER 7

Cover. Unusual arson fires in the United States. **M. Matson and G. Stephens** 1363

Seeking the truth in Kathmandu; fieldwork as an essential component in remote sensing studies. **D. Craven and B. Haack** 1365

Compiling soil maps on the basis of remotely-sensed data digital processing: soil interpretation. **T. V. Korolyuk and H. V. Shcherbenko** 1379

Estimating grassland biomass and leaf area index using ground and satellite data. **M. A. Friedl, J. Michaelsen, F. W. Davis, H. Walker and D. S. Schimel** 1401

A simple model for the temporal variations of NDVI at regional scale over agricultural countries. Validation with ground radiometric measurements. **A. Fischer** 1421

A two-axis adjusted vegetation index (TWVI). **Li Xia** 1447

The red edge position and shape as indicators of plant chlorophyll content, biomass and hydric status. **I. Filella and J. Peñuelas** 1459

Delineation and analysis of the surface and subsurface structural lineament patterns in the North Lake Nasser area and its surroundings, Aswan, upper Egypt. **A. F. Kamel and A. M. Elsirafe** 1471

An investigation of mineralized zones revealed during geological mapping, Jabal Hamra Faddan—Wadi Araba, Jordan, using Landsat-TM data. **G. Abdelhamid and I. Rabba** 1495

Towards an integrated geographic analysis system with remote sensing, GIS and consecutive modelling for snow cover monitoring. **M. F. Baumgartner and G. Apfl** 1507

Three years of total ozone measurements over Athens obtained using the remote sensing technique of a Dobson spectrophotometer. **C. A. Varotsos and A. P. Cracknell** 1519

Remote sounding of minor constituents in the stratosphere and heterogeneous reactions of gases at solid interfaces. **C. A. Varotsos and A. P. Cracknell** 1525

Annual, semi-annual and terannual waves in total ozone as derived from TOMS data at the subtropics. **C. A. Varotsos, A. Vlassi, G. Chronopoulos and A. P. Cracknell** 1531

Radiometric studies of transportation of waver vapour over Calcutta. **P. K. Karmakar, S. Devbarman, S. Chattopadhyay and A. K. Sen** 1537

Conference Announcement 1543

Erratum 1545

Book reviews 1549

Remote Sensing Letters

Sample size and class variability in the choice of a method of discriminant analysis. **R. M. Lark** 1551

NUMBER 8

Cover. Role of remote sensing in flood management—the May 1990 cyclone. **R. S. Rao** 1557

An empirically derived protocol for the detection of blooms of the marine cyanobacterium *Trichodesmium* using CZCS imagery. **A. Subramaniam and E. J. Carpenter** 1559

Estimates of water quality in coastal waters using multi-date Landsat Thematic Mapper data. **C. Pattiaratchi, P. Lavery, A. Wyllie and P. Hick** 1571

Importance of dihedral reflection in radar remote sensing of forests. **H. Israelsson and J. Askne** 1585

Use of digitally processed satellite images in studies of tropical rain forest vegetation. **H. Tuomisto, A. Linna and R. Kalliola** 1595

TM digital processing of a tropical forest region in southeastern Mexico. **M. C. Garcia and R. Alvarez** 1611

A geobotanical approach to the tropical rain forest environment of the Carajás Mineral Province (Amazon Region, Brazil), based on digital TM-Landsat and DEM data. **W. R. Paradella, M. F. F. da Silva, N. de A. Rosa and C. A. Kushigbor** 1633

Remote sensing of beach erosion along the Rosetta promontary, northwestern Nile delta, Egypt. **O. E. Frihy, S. M. Nasr, M. M. el Hattab and M. el Raey** 1649

An empirical approach to the characterization of background signatures in the thermal infrared spectral region. **P. A. M. Jacobs** 1661

Monitoring of underground coal fires using thermal infrared data. **S. B. Mansor, A. P. Cracknell, B. V. Shilin and V. I. Gornyi** 1675

The patchwork problem: effects of sub-pixel scale non-uniformity on the spatially-averaged sensible heat flux. **K. J. McAneney and J. P. Lagouarde** 1687

Retrieval of land and sea surface temperature using NOAA-11 AVHRR data in north-eastern Brazil. **G. B. França and A. P. Cracknell** 1695

Remote Sensing Letters

Un nouvel espace de texture. **L. Wang** 1713

Relationship between woody biomass and PAR conversion efficiency for estimating net primary production from NDVI. **E. Raymond Hunt, Jr** 1725

NUMBER 9

Cover. The Pasterze Glacier, Austria. **K. J. Bayr, D. K. Hall and W. M. Kovalick** 1731

Observations on glaciers in the eastern Austrian Alps using satellite data. **K. J. Bayr, D. K. Hall and W. M. Kovalick** 1733

Radiative transfer equation with surface scattering for ocean and atmospheric parameters retrieval from radiometric measurements. **A. Guissard, P. Sobieski and A. Lalou x** 1743

Statistical investigations of the synthetic aperture radar images. **A. V. Totsky and B. F. Gorbunenko** 1761

Comparison of elevation derived from INSAR data with DEM over large relief terrain. **Q. Lin, J. F. Vesecky and H. A. Zebker** 1775

An algorithm for estimating the noise levels in polarimetric SAR image data. **A. Freeman** 1791

On the use of multi-frequency and polarimetric radar backscatter features for classification of agricultural crops. **A. Freeman, J. Villasenor, J. D. Klein, P. Hoogeboom and J. Groot** 1799

Radar response of periodic vegetation canopies. **M. W. Whitt and F. T. Ulaby** 1813

Mapping forest biomass through digital processing of IRS-1A data. **A. K. Tiwari** 1849

Radiometric characteristics of *Triticum aestivum* cv. Astral under water and nitrogen stress. **S. Fernández, D. Vidal, E. Simón and L. Solé-Sugrañes** 1867

Seasonal variation and stability of soil spectral patterns in a fluvial landscape. **E. Muller and M. James** 1885

Remote sensing technique for mapping salt affected soils. **K. S. Verma, R. K. Saxena, A. K. Barthwal and S. N. Deshmukh** 1901

Analysis of the atmospheric and emissivity influence on the split-window equation for sea surface temperature. **C. Coll and V. Caselles** 1915

Intercomparison of ozone models derived by remote and *in situ* sensing techniques with recent local measurements at middle latitudes. **C. A. Varotsos, P. Kalabokas and A. P. Cracknell** 1933

Technical Note. Evaluating unsupervised classifiers with similarity and comparison matrices. **M. Tsakiri-Strati** 1941

Book reviews 1949

Calendar 1951

NUMBER 10

Cover. Mt. Pinatubo eruption. **G. Stephens** 1955

La didactique de l'image. **E. Tonye, A. Akono, P. Tricot et O. Awono** ... 1957

The use of airborne thermal remote sensing for soil mapping: a case study in the Limousin Region (France). **F. Gauthier and A. Tabbagh** 1981

Measurement and analysis of thermal energy responses from discrete urban surfaces using remote sensing data. **D. A. Quattrochi and M. K. Ridd** ... 1991

Estimating maize (Zea mays) evapotranspiration from NOAA-AVHRR thermal data in the Albacete area, Spain. **E. Hurtado, M. M. Artigao and V. Caselles** 2023

Investigations of the hydrobiological situation in Lake Onega using joint spaceborne radar, airborne and *in situ* measurements. **M. A. Naumenko, D. V. Beletsky, V. B. Rumyantsev, V. S. Etkin, K. Ts. Litovchenko and A. V. Smirnov** 2039

Satellite observations of circulation in the southern Great Barrier Reef, Australia. **J. A. Kleypas and D. M. Burrage** 2051

An atmospheric correction method for the automatic retrieval of surface reflectances from TM images. **M. A. Gilabert, C. Conese and F. Maselli** 2065

The application of satellite remote sensing and spatial proximity analysis techniques to observations on the grazing of oilseed rape by roe deer. **G. G. Wright and B. Boag** 2087

Indicators of land-cover change for change-vector analysis in multitemporal space at coarse spatial scales. **E. F. Lambin and A. H. Strahler** 2099

Modelling relationships between NDVI and precipitation during vegetative growth cycles. **Liping Di, D. C. Rundquist and Luoheng Han** 2121

Pre-harvest wheat yield and production estimation for the Punjab, India. **R. P. Dubey, N. Ajwani, M. H. Kalubarme, V. N. Sridhar, R. R. Navalgund, R. K. Mahey, S. S. Sidhu, O. P. Jhorar, S. S. Cheema and R. S. Narang**. 2137

Remote Sensing Letters

Classification spectrale et texturale des données d'images SPOT en milieu urbain. **D.-C. He, L. Wang, T. Baulu, D. Morin et A. Bannari** 2145

NUMBER 11

Cover. IRS Detection of surface effects of the Uttarkashi earthquake of 20 October 1991, Himalaya. **R. P. Gupta, A. K. Saraf, P. Saxena and R. Chander** 2153

On fine structure of dot echoes as observed by acoustic sounder. **A. K. De, S. Tripathy and J. Das** 2157

A fresh consideration on the choice of radiometer operating frequency in atmospheric remote sensing. **S. K. Datta and A. K. Sen** 2167

Potential observations with EURECA/VEXUVIO imaging spectrometer. **S. Mattei, S. Vetrella, A. Moccia, A. L. Lane, D. C. Pieri, M. J. Abrams and R. Bianchi** 2175

Extraction of mineral absorption features from high-spectral resolution data using non-parametric geostatistical techniques. **F. Van der Meer** ... 2193

The limitations and potential of AVHRR GAC data for continental scale fire studies. **A. S. Belward, P. J. Kennedy and J.-M. Grégoire** 2215

An improved approach to fire monitoring in West Africa using AVHRR data. **P. J. Kennedy, A. S. Belward and J.-M. Grégoire** 2235

Use of a meteorology model to correct atmospheric effects in NOAA-AVHRR data. **H. Ouaidrari, J. Imbernon and G. Dedieu** 2257

Applications of image texture in forest classification. **S. P. S. Kushwaha, S. Kuntz and G. Oesten** 2273

Review article. An overview on applications and capabilities in the Meteosat image processing system. **F.-J. Diekmann** 2285

Classification of multi-look polarimetric SAR imagery based on complex Wishart distribution. **J. S. Lee, M. R. Grunes and R. Kwok** 2299

The effects of the attitude of the circular orbiting SAR on Doppler properties. **Zhensong Wang, Zhiqin Wang and Jiang Xu** 2313

Soil moisture estimation over grass-covered areas using AIRSAR. **D. S. Lin, E. F. Wood, K. Beven and S. Saatchi** 2323

Book review 2345

NUMBER 12

Special issue: Scaling in Remote Sensing

Cover 2349

Preface. **M. Raffy** 2351

Introduction. Change of scale theory: a capital challenge for space observation of earth. **M. Raffy** 2353
Heterogeneity and change of scale in models of remote sensing. Spatialization of multi-spectral models. **M. Raffy** 2359
The role of spatial resolution in quantification problems: spatialization method. **M. Raffy** 2381
A spatialized APAR for heterogeneous pixels. **C. Gregoire and M. Raffy** 2393
Scaling and physical thresholds: the case of continental topography. **M. Souriau** 2403
A multi-scale analysis of continental relief in Southern France. **M. Vergne and M. Souriau** 2409
Thresholds of homogeneity in targets in the landscape. Relationship with remote sensing. **C. Puech** 2421
Identifying spatial patterns of Mediterranean landscapes from geostatistical analysis of remotely-sensed data. **B. Lacaze, S. Rambal and T. Winkel** 2437
Multi-resolution analysis of radar images and its application to lithological and structural mapping; Larzac (southern France) test site. **J. P. Rudant, J.-P. Deroin and L. Polidori** 2451
Morphostructural analysis, radar and SPOT image interpretation as tools for petroleum exploration: an example from the Gabian-Pézenas area (Hérault, Southern France). **D. Raymond, B. Deffontaines, J. P. Rudant, P. Elion and J. Andrieux** 2469
Interpretation of remote sensing imagery to assess the sustainability of agricultural systems. **I. Duvernoy, C. Albaladejo, A. Langlet and S. Lardon** 2481
Perception of a geological body using multiple source remotely-sensed data—relative influence of the spectral content and the spatial resolution. **H. Yésou, Y. Besnus and J. Rolet** 2495

NUMBER 13

Cover 2511
MOMS-02/D2: First results and future applications. **J. Bodechtel, Q. Lei, G. Loercher, H. Kaufmann, M. Berger and B. Koch** 2513
Lineament control on channel behaviour during the 1990 flood in the southeastern Thar Desert. **A. Kar** 2521
Variability of the bare soil albedo due to different solar zenith angles and atmospheric haziness. **C. H. Liu, A. J. Chen and G. R. Liu** 2531
Digital change detection of forest conversion of a dry tropical Indian forest region. **C. S. Jha and N. V. M. Unni** 2543
Aerial and satellite sensor detection of *Kalmia angustifolia* at forest regeneration sites in central Newfoundland. **S. E. Franklin, R. T. Gillespie, B. D. Titus and D. B. Pike** 2553
Simulation of citrus orchard reflectance by means of a geometrical canopy model. **M. A. Gilabert, D. Segarra and J. Meliá** 2559

An evaluation of Landsat Thematic Mapper (TM) digital data for discriminating coral reef zonation: Heron Reef (GBR). **W. Ahmad and D. T. Neil** 2583

Simulation of remote sensing of sea surface temperature from space: influences of cirrus clouds and stratospheric aerosols on sea surface temperatures derived from the VISSR Atmospheric Sounder. **L. Xu, J. Zhang, G. Zhang and H. Chen** 2599

Effect of surface wind speed and sensor view zenith angle dependence of emissivity on SST retrieval from thermal infrared data: ATSR. **S. M. Singh** 2615

Improved atmospheric correction process in monitoring SST around the outfall of a nuclear power plant. **G.-R. Liu and T.-H. Kuo** 2627

Measurement and analysis procedures for remote identification of oil spills using a laser fluorosensor. **M. F. Quinn, A. S. Al-Otaibi, P. S. Sethi, F. Al-Bahrani and O. Alameddine** 2637

Ozone depletion over Scotland as derived from Nimbus-7 TOMS measurements. **A. P. Cracknell and C. A. Varotsos** 2659

Total ozone amount trend at St Petersburg as deduced from Nimbus-7 TOMS observations. **K. Ya. Kondratyev, C. A. Varotsos and A. P. Cracknell** 2669

Remote Sensing Letters

ERS-1 SAR backscattering coefficients from bare fields with different tillage row directions. **D. B. Michelson** 2679

Separability of tropical rain-forest types in the Tambopata–Candamo Reserved Zone, Peru. **R. A. Hill and G. M. Foody** 2687

Development and validation of AVHRR-derived regional forest cover data for the north-eastern U.S. **R. G. Lathrop, Jr. and J. A. Bognar** ... 2695

NUMBER 14

The MAESTRO 1 Airborne Polarimetric SAR Campaign

Cover. P-band multi-polarisation composite of Speulderbos forest. **D. H. Hoekman and J. J. van der Sanden** 2703

The MAESTRO 1 European airborne polarimetric Synthetic Aperture Radar Campaign. **P. N. Churchill and E. P. W. Attema** 2707

Phase measurements in MAESTRO polarimetric data from the U.K. test sites. **S. Quegan, L. V. Dutra and K. Grover** 2719

Calibration and modelling of MAESTRO 1 polarimetric SAR data of a forest area in Les Landes, France. **H. Skriver, H. B. Mortensen and P. Gudmandsen** 2737

Fully polarimetric classification of the Black Forest MAESTRO 1 AIRSAR data. **G. F. de Grandi, G. G. Lemoine, H. de Groof, C. Lavalle and A. J. Sieber** 2755

Retrieval of forest biomass from SAR data. **A. Beaudoin, T. le Toan, S. Goze, E. Nezry, A. Lopes, E. Mougin, C. C. Hsu, H. C. Han, J. A. Kong and R. T. Shin** 2777

Radar-based forest biomass estimation. **Y. Rauste, T. Häme, J. Pulliainen, K. Heiska and M. Hallikainen** 2797

Potential of SAR for forest bole volume estimation. **H. Israelsson, J. Askne and R. Sylvander** 2809

Relationships between physical characteristics and polarimetric radar backscatter for Corsican pine stands in Thetford Forest, U.K. **J. R. Baker, P. L. Mitchell, R. A. Cordey, G. B. Groom, J. J. Settle and M. R. Stileman** 2827

Polarimetric contrast classification of agricultural fields using MAESTRO 1 AIRSAR data. **G. G. Lemoine, G. F. de Grandi and A. J. Sieber** ... 2851

Crop classification from *C*-band polarimetric radar data. **G. M. Foody, M. B. McCulloch and W. B. Yates** 2871

Assessment of polarimetric features to discriminate land cover from the MAESTRO 1 campaign. **P. Basili, P. Ciotti, G. D'Auria, F. S. Marzano, N. Pierdicca and P. Quarto** 2887

Interpretation and model analysis of MAESTRO 1 Flevoland data. **P. Ferrazzoli and L. Guerriero** 2901

Effect of scattering mechanisms on polarimetric features of crops and trees. **P. de Matthaeis, G. Schiavon and D. Solimini** 2917

Analysis of theoretical surface scattering models for polarimetric microwave remote sensing of bare soils. **M. Borgeaud and J. Noll** 2931

Radiative transfer theory for polarimetric remote sensing of pine forest at *P* band. **C. C. Hsu, H. C. Han, R. T. Shin, J. A. Kong, A. Beaudoin and T. le Toan** 2943

NUMBER 15

Special Issue: Training in Remote Sensing: A European proposal?

Cover 2957

Editor's Preface 2959

Foreword. **H. Currien** 2963

Opening Address. **J. Massue** 2965

Session 1. Remote sensing education and training in Europe today

Short Contributions 2969

Needs for co-operation between Eastern and Western Europe. **C. Voûte** ... 2973

Detailed case study for Hungary. **P. Winkler** 2995

Remote sensing and developing countries, training and technology transfer Europe–Africa. **M. M. Kabbaj and M. Ben Mehrez** 3003

Report on Session 1 3017

Session 2. Manpower requirements and qualifications

The remote sensing manpower market in Europe. **J. L. van Genderen** ... 3023

Short Contributions 3037
Report on Session 2 3045
Session 3. Towards common standards for training—European education projects
Postgraduate education—the European dimension. **R. A. Vaughan** ... 3051
Short Contributions 3059
Report on Session 3 3073
Session 4. Technological means to assist remote sensing training
Short Contributions 3079
Report on Session 4 3095
Session 5. Cost/benefit aspects of remote sensing education
Short Contributions 3101
Remote sensing and GIS activities in UNESCO. **R. Missotten, Q. Han and A. Aureli** 3111
Report on Session 5 3119
Session 6. Conclusions and recommendations
Report on Session 6 3125
Appendix 3127

NUMBER 16

Cover 3131
Hurricane Andrew from the Polar Orbiting Satellite Perspective. **N. L. Jackson and G. Stephens** 3133
A simple method for fire growth mapping using AVHRR channel 3 data. **E. Chuvieco and M. P. Martín** 3141
Influence of topography on landscape radiation temperature distribution. **I. V. Florinsky, T. B. Kulagina and J. L. Meshalkina** 3147
Changes in wild ass (*Equus hemionus khur*) habitat conditions in Little Rann of Kutch, Gujarat from a remote sensing perspective. **S. N. Prasad, S. P. Goyal, P. S. Roy and S. Singh** 3155
Technical note. Cost analysis over flight line and ground line alignments of highway—using remote sensing technique. **K. M. Lakshmana Rao** ... 3165
Monitoring change in the extent of salt-affected soils in northern India. **A. N. Singh** 3173
Detection of post-drought environmental conditions in the Tombouctou region. **P. A. Jacobberger-Jellison** 3183
Identification of carbon quantifiable regions in the former Soviet Union using unsupervised classification of AVHRR global vegetation index images. **G. G. Gaston, P. L. Jackson, T. S. Vinson, T. P. Kolchugina, M. Botch and K. Kobak** 3199
Species composition related to spectral classification in an Australian spinifex hummock grassland. **M. M. Lewis** 3223

Artificial neural network techniques for estimating heavy convective rainfall and recognizing cloud mergers from satellite data. **M. Zhang and R. A. Scofield** 3241

Application of an artificial neural network in canopy scattering inversion. **L. E. Pierce, K. Sarabandi and F. T. Ulaby** 3263

Optimization of training data required for neuro-classification. **X. Zhuang, B. A. Engel, D. F. Lozano-Garcia, R. N. Fernández and C. J. Johannsen** 3271

On the accuracy of total ozone measurements made with a Dobson spectrophotometer in Athens. **C. A. Varotsos and A. P. Cracknell** ... 3279

On the total ozone depletion over Greece derived from satellite-flown and ground-based instruments. **A. P. Cracknell, C. A. Varotsos and D. N. Asimakopoulos** 3285

Reply to the paper: On the total ozone depletion over Greece derived from satellite flown and ground-based instruments. **A. F. Bais, K. D. Tourpali, C. S. Zerefos and I. C. Ziomas** 3295

Remote Sensing Letters

Estimating sub-pixel components of a semi-arid woodland. **H. D. Williamson** 3303

Panicle contribution to bidirectional reflectance factors of a wheat canopy. **G. Zipoli and D. Grifoni** 3309

NUMBER 17

Special Issue: Global data sets for the land from the AVHRR

Cover. The Pathfinder AVHRR Land Data Set. **M. E. James** 3315

Preface 3317

Global data sets for land applications from the Advanced Very High Resolution Radiometer: an introduction. **J. R. G. Townshend** 3319

NASA's Pathfinder data set programme: land surface parameters. **M. E. Maiden and S. Greco** 3333

The Pathfinder AVHRR land data set: An improved coarse resolution data set for terrestrial monitoring. **M. E. James and S. N. V. Kalluri** ... 3347

The University of Maryland improved Global Vegetation Index product. **S. N. Goward, S. Turner, D. G. Dye and S. Liang** 3365

Recent activities in the European Community for the creation and analysis of global AVHRR data sets. **J.-P. Malingreau and A. S. Belward** 3397

The 1 km resolution global data set: needs of the International Geosphere Biosphere Programme. **J. R. G. Townshend, C. O. Justice, D. Skole, J.-P. Malingreau, J. Cihlar, P. Teillet, F. Sadowski and S. Ruttenberg** ... 3417

The 1 km AVHRR global land data set: first stages in implementation. **J. C. Eidenshink and J. L. Faundeen** 3443

Mapping raster imagery to the Interrupted Goode Homolosine projection. **D. R. Steinwand** 3463

Characteristics of composited AVHRR data and problems in their classification. **A. Moody and A. H. Strahler** 3473

A global 1° by 1° NDVI data set for climate studies derived from the GIMMS continental NDVI data. **S. O. Los, C. O. Justice and C. J. Tucker** ... 3493

A global 1° by 1° NDVI data set for climate studies. Part 2: The generation of global fields of terrestrial biophysical parameters from the NDVI. **P. J. Sellers, C. J. Tucker, G. J. Collatz, S. O. Los, C. O. Justice, D. A. Dazlich and D. A. Randall** ... 3519

AVHRR data sets for determination of desert spatial extent. **C. J. Tucker, W. W. Newcomb and H. E. Dregne** ... 3547

NDVI-derived land cover classifications at a global scale. **R. S. Defries and J. R. G. Townshend** ... 3567

Terrestrial remote sensing science and algorithms planned for EOS/MODIS. **S. W. Running, C. O. Justice, V. Salomonson, D. Hall, J. Barker, Y. J. Kaufmann, A. H. Strahler, A. R. Huete, J.-P. Muller, V. Vanderbilt, Z. M. Wan, P. Teillet and D. Carneggie** ... 3587

Data sets for global remote sensing: lessons learnt. **C. O. Justice and J. R. Townshend** ... 3621

NUMBER 18

Cover. Wildfire monitoring in New South Wales, Australia. **J. Adams** 3641

Relations between SMMR 37 GHz polarization difference and rainfall, and atmospheric carbon dioxide concentration. **B. J. Choudhury and N. E. DiGirolamo** ... 3643

Some concepts for precise estimation of deformations/rigid areas in polar pack ice based on time series of ERS-1 SAR images. **R. Korsnes** ... 3663

Classification of MOS-1 VTIR images in the Antarctic, a case study. **W. Schneider, T. Yamanouchi, O. Watanabe, F. Nishio and H. Masuko** ... 3675

Comparison of IRS-IB LISS-IIA pixel array sizes for estimating suspended solids concentration in Hussain Sagar lake, Hyderabad, India—a statistical approach. **M. Anji. Reddy and S. Srinivasulu** ... 3693

The spectral responses of algal chlorophyll in water with varying levels of suspended sediment. **L. Han, D. C. Rundquist, L. L. Liu, R. N. Fraser and J. F. Schalles** ... 3707

Exact closed-form geolocation algorithm for Earth survey sensors. **F. S. Patt and W. W. Gregg** ... 3719

Fourier Series for analysis of temporal sequences of satellite sensor imagery. **L. Olsson and L. Eklundh** ... 3735

Multi-spectral edge detection. Some experiments on data from Landsat-TM. **C. Drewniok** ... 3743

Extracting crop radiometric responses from simulated low and high spatial resolution satellite data using a linear mixing model. **Ph. Puyou-Lascassies, A. Podaire and M. Gay** ... 3767

In situ reflectance measurements and TM data of some sedimentary rocks with emphasis on white sandstone, southwestern Sinai, Egypt. **M. L. El Rakaiby, M. H. Ashmawy, M. A. Yehia and A. S. Ayoub** ... 3785

Image-analysis and cartography of sand hill massifs on high resolution images: application to the Great Western Erg (NW of Algerian Sahara). **Y. Callot, C. Mering and A. Simonin** 3799

Vector choice in the texture spectrum approach. **L. Wang** 3823

Classification d'images radar aéroporté multipolarisations en milieu agricole. **H. Anys, D.-C. He, L. Wang et Q. H. J. Gwyn** 3831

Remote Sensing Letters

Classification non dirigée optimale d'une image monocanal. **Ph. Aubry and Ch. Egretaud** 3839

Angular effect in dual-window AVHRR brightness temperatures over oceans. **A. M. Ignatov and I. L. Dergileva** 3845

Mapping the degree of serpentinization within ultramafic rock bodies using imaging spectrometer data. **F. van der Meer** 3851

Multiple view zenith angle observations of reflectance from ponderosa pine stands. **L. F. Johnson** 3859

Erratum

Effect of surface wind speed and sensor view zenith angle dependence of emissivity on SST retrieval from thermal infrared data: ATSR. **S. M. Singh** 3867
